TODAY AT A GLANCE

- High-Level Committee on Demographic Change: Chaired by PM, mandated to study illegal immigration-driven demographic shifts
- National Sports Governance Act 2025: Board and Tribunal rules notified in 2026 — NSB governs, NST adjudicates
- IIP Base Year Revision: Shifts from 2011-12 to 2022-23, new series effective June 2026
- PM-WANI: DoT's public Wi-Fi framework — no app, no registration required after latest reforms

#1 Indian Polity & Constitution › Constitutional Bodies & Committees › High-Level Committee on Demographic Change

WHY IN NEWS

The Government of India constituted a **High-Level Committee** on Demographic Change to study population shifts arising from illegal immigration and other abnormal factors, and to recommend measures to address them.

KEY FACTS FOR RPSC

- The Committee is chaired by the **Prime Minister** of India, making it the highest-level executive committee of its kind on demographic issues.
- Its mandate covers studying demographic changes caused specifically by illegal immigration and suggesting policy, administrative, and legislative remedies.
- The Committee is constituted under the executive power of the Union (**Article 73** of the Constitution) — it is not a constitutional or statutory body.
- Earlier committees on related themes include the **Illegal Migrants (Determination by Tribunals) Act 1983** (struck down in **2005**, Sarbananda Sonowal case) and the National Register of Citizens (**NRC**) process under the **Citizenship Act 1955**.

Memory Hook: PM chairs it, illegal immigration drives it — executive power under **Article 73**, not a constitutional commission.

PYQ VAULT

2018 Q49. Central Vigilance Commission was set up on the recommendation of —

(a) Gorwala Report (b) Kriplani Committee (c) Santhanam Committee (d) Administrative Reforms Commission of India

Answer: (c) **Santhanam Committee**

■ RPSC links high-level committees to their origin and mandate — know who constituted this committee, under what authority, and why.

#2 Indian Polity & Constitution › Legislation & Rules › National Sports Governance Act 2025

WHY IN NEWS

The Union Government notified the **National Sports Governance (National Sports Board) Rules 2026** and the **National Sports Governance (National Sports Tribunal) Rules 2026** under the **National Sports Governance Act 2025**.

KEY FACTS FOR RPSC

- The **National Sports Governance Act** was enacted in **2025** — India's first comprehensive legislation to regulate governance of national sports federations.
- The Act creates two distinct bodies: **National Sports Board (NSB)** — the apex regulatory and oversight body for sports federations — and **National Sports Tribunal (NST)** — a quasi-judicial body to adjudicate sports-related disputes.
- **NSB** is under the Ministry of Youth Affairs and Sports; it oversees compliance of national sports federations with governance norms including elections, age limits, and transparency.
- The Act applies to National Sports Federations (**NSFs**) that receive government grants or recognition, and is India's legislative response to the International Olympic Committee's demand for clean sports governance.

Memory Hook: NSB runs the game, NST settles the dispute — Board governs, Tribunal adjudicates, both born from Act 2025.

#3 Indian Economy › Index of Industrial Production › IIP Base Year Revision 2022-23

WHY IN NEWS

MoSPI announced the revision of the **IIP** base year from **2011-12** to **2022-23**, with the new series to be released on 1 June 2026 — the most significant IIP revision in over a decade.

KEY FACTS FOR RPSC

- **IIP (Index of Industrial Production)** measures the quantum of industrial output across Mining, Manufacturing, and Electricity sectors; published monthly by **MoSPI** (formerly CSO).
- Base year history: **1993-94** → **2004-05** → **2011-12** → **2022-23** (effective June 2026) — each revision updates the basket of goods and weights to reflect current industrial structure.
- The 2022-23 revision will increase the number of items tracked, update sector weights, and align with post-COVID industrial realities; Manufacturing continues to carry the highest weight (approximately **77%**).
- IIP is a key high-frequency indicator used by **RBI** for monetary policy decisions and by the government to track industrial health between two GDP releases.

26 May 2026

paperse.in

Memory Hook: IIP base years: 93-94, 04-05, 11-12, 22-23 — MoSPI publishes, RBI uses, Manufacturing dominates at ~77%.

PYQ VAULT

2015 Q67. Indicate the vital change in the measurement of National Income of India recently.

(a) Base year changed from **2004-05** to **2011-12** (b) Calculation changed from factor cost to market prices (c) Calculation changed from current to constant prices (d) Both base year and calculation method changed

Answer: (d) Both the base year and calculation method have changed

■ RPSC has directly tested base year revisions before — the IIP revision to **2022-23** follows the same pattern of updating base years to reflect current economic realities.

#4 Science & Technology › Digital Infrastructure & Telecom Policy › PM-WANI Framework

WHY IN NEWS

The **Department of Telecommunications (DoT)** introduced major citizen-friendly reforms to the **PM-WANI** framework, simplifying public Wi-Fi access by removing barriers like mandatory app downloads and registrations.

KEY FACTS FOR RPSC

- **PM-WANI** stands for Prime Minister Wi-Fi Access Network Interface — launched by **DoT** in **December 2020** to create a decentralised public Wi-Fi ecosystem across India.
- The framework operates through three entities: **PDO** (Public Data Office — the local Wi-Fi hotspot provider), **PDOA** (Public Data Office Aggregator — manages multiple PDOs), and App Provider (authenticates users); no licence fee is required to become a PDO.
- Key feature: PM-WANI was designed to allow small shopkeepers and local entrepreneurs to become Wi-Fi providers (PDOs) without any licence, enabling last-mile broadband access.
- After **2026** reforms, users can connect to PM-WANI hotspots without downloading a separate app or completing fresh registration each time — friction-free access aligned with Digital Public Infrastructure goals.

Memory Hook: **PM-WANI** = Wi-Fi for All Nationally by India — DoT, **December 2020** — PDO sells, PDOA aggregates, App authenticates.
